1. We recapped our budget/investment plan, it is still what we want to do. Potential risks such as underspend and Learn To Lead projects identified, understood that we can adapt, increase spend on other items. Ruth let us know that we can spend earlier if required.

- 2. Also covered within our discussions were:
- Theory of Change Session, likely to be afternoon of 22nd August. This will help us understand what we want to do beyond Feb 2026, and what we have to do to prepare. It will be led by Locality, an organisation that supports the third sector across the UK. Paid for by Local Trust.
 All invited to attend. Location to be decided.
- Application for funding has come in from the Children's Centre. They run two perinatal courses in partnership with Creativity Works. Children's Centre provides the space, coordination and child care, whilst Creativity Works provide the therapeutic artist and materials. There are a number of sessions scheduled Sept 'til Mar '24. Unfortunately, Creativity Works are struggling financially and restructuring, and have had to pull out of the partnership. The Children's Centre are asking us to cover the cost of them bringing in a therapeutic artist for those sessions. They will work towards identifying other funding sources for further courses.
- Loan RW spoke with GC earlier in the month, who was feeling confident that the situation would be resolved as the stakeholders were communicating.
- LTO The CIC is now the LTO, will hold the money, (drawn down every 6 months), and perform due diligence on spend.
- Learn to Lead Rob hoping for a meeting with Max to discuss change of tack soon.
- Green Spaces Rob waiting to hear back from St Nic's church meeting regarding suitability of developing their green space for community use.
- Green Spaces Lavinia is on the Neighbourhood plan steering group, who have carried out a community consultation and green issues are top of most people's agenda. Partnership considered this to be supportive of what we are aiming to do, and keen to find opportunities to partner with stakeholders.
